PROBLEM STATEMENT

- ❖ To display the farmer's profile and his crop analysis.
- ❖ Provide a portal where field staff can enter the data of farmers through a form.
- ❖ Provide a way to analysis and visualize data for economic and social impact
- ❖ Need to educate farmers about the technology and local resources

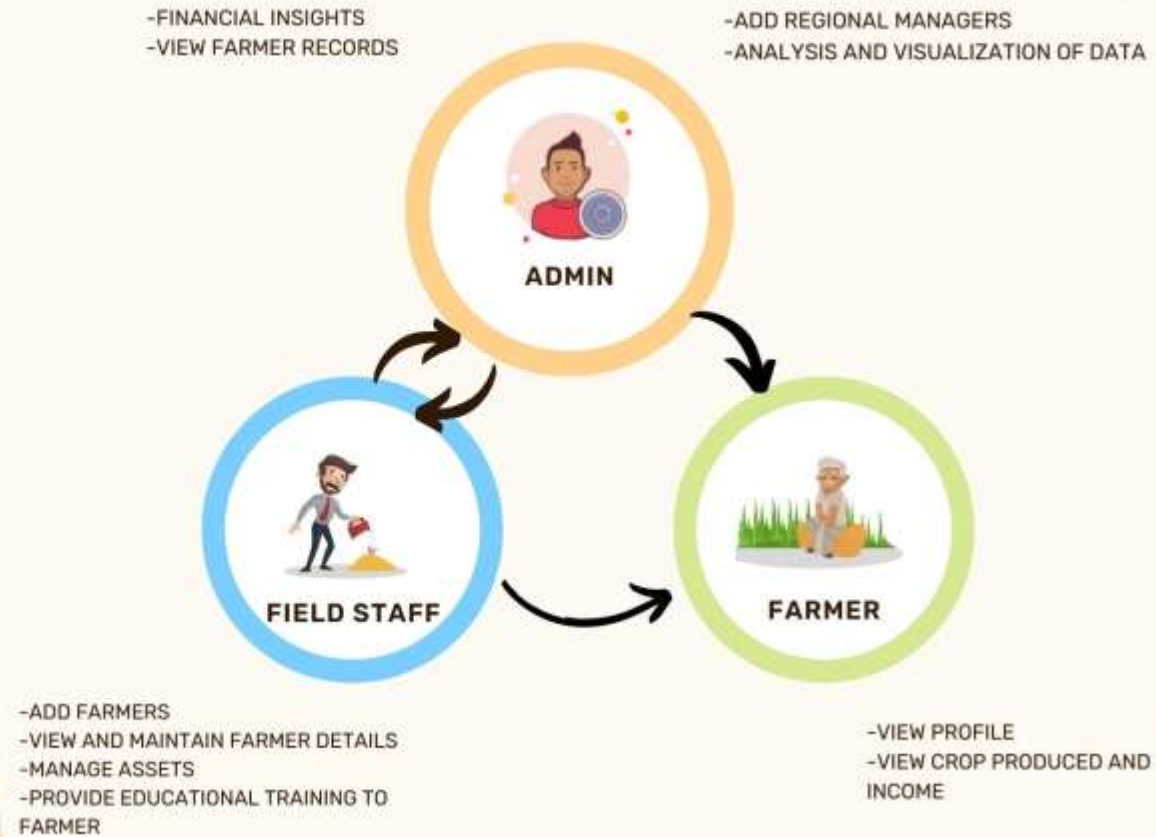

SOLUTION

- ❖ Simple and user-friendly portal to gather all the data.
- ❖ Admin, Regional Field Managers, and Farmers have their own database to serve their needs.
- ❖ Visualization of data in graphical form
- ❖ Logistics presentation for economic and social benefits.
